<p>Project Information: This roadway provides access to Port of Seattle terminals, rail yards, and other industrial land uses in the Duwamish Manufacturing Industry Center (MIC). It is a critical last mile connector and a vital route for trucks carrying over-sized or flammable cargo. It serves as an important connection between the Duwamish MIC and Ballard-Interbay MIC areas. This project rebuilds the roadway between S Atlantic St and S Spokane St to Heavy Haul route standards, creates a separated bicycle facility between S Atlantic St and Diagonal Ave S, upgrades traffic signals at Atlantic and Hanford St, installs ITS improvements, and makes spot pedestrian improvements (including missing sidewalk) on the east side of E Marginal Way between Diagonal Ave S and 1 Ave S.</p>
