2019 Washington State Legislative Language

ESHB 1160 – Section 311(18)

Funding in this subsection is provided solely for the city of Seattle to develop a plan and report for the Ballard-Interbay Regional Transportation System project to improve mobility for people and freight. The plan must be developed in coordination and partnership with entities including but not limited to the city of Seattle, King county, the Port of Seattle, Sound Transit, the Washington state military department for the Seattle armory, and the Washington state department of transportation.

The plan must examine replacement of the Ballard bridge and the Magnolia bridge, which was damaged in the 2001 Nisqually earthquake. The city must provide a report on the plan that includes recommendations to the Seattle city council, King county council, and the transportation committees of the legislature by November 1, 2020. The report must include recommendations on how to maintain the current and future capacities of the Magnolia and Ballard bridges, an overview and analysis of all plans between 2010 and 2020 that examine how to replace the Magnolia bridge, and recommendations on a timeline for constructing new Magnolia and Ballard bridges.

Project Area

Project partners

Agency Partners per legislation

- WSDOT
- Sound Transit
- King County
- Port of Seattle
- Washington state military
- SDOT

Others

- Freight Mobility Strategic Investment Board
- Department of Commerce
- School District

Other Engagement

- Develop a Public Information Plan and Racial Equity Toolkit
- Inform public throughout the process on the project website
- Invite public to attend select agency meetings
- Invite comment from City of Seattle Boards and Commissions

Planning Study Process Timeline

	2019		2020
