

Informational only: The following companies have submitted reports of DAS testing/maintenance to SFD, and/or participated in the voluntary DAS Regional Stakeholder Advisory Group with fire marshals from the Puget Sound Region, and/or submitted information to SFD indicating they employ technicians who meet code requirements to work on these systems, as of 07/7/2021.

This list is not intended as proof that contractors meet code standards. Before entering into a contract, please check for required credentials including FCC General Radio-telephone Operator License (GROL) and manufacturer training on system being installed/maintained.
