

## **130<sup>th</sup> and 145<sup>th</sup> Station Area Planning Online Community Conversation Summary Summer - Fall 2020**

Thank you to everyone who participated in our Online Community Conversations this summer and fall. Although we would prefer to meet with you in person, your input allowed important planning work to continue. Your involvement allows us to be ready for whatever decisions the City or Sound Transit makes in the coming months about the schedule for new light rail or bus rapid transit service, future land use changes or mobility projects. Below is a summary of each conversation and a link to the detailed survey results.

### **Vision**

Opened June 23, 2020

# of responses: 352

# questions: 7

Highlights:

- 78% liked the Vision.
- Concerns about achieving the vision, especially walkability.

Detailed results [Online Community Conversation: Vision](#)

### **Mobility**

Opened July 20, 2020

# of responses: varied by subarea

# questions: 10 (plus 5 demographic questions)

Community Priorities:

- Upgrade sidewalks, bike facilities, and street crossings in the neighborhoods near the future light rail
- Provide safe walking and biking connections along NE 130th St and NE 145th St
- Improve the NE 130th St overpass for walking and biking
- Improve walking connections around the Jackson Park Golf Course

### **Zoning and Transit Oriented Development (TOD)**

Opened August 25, 2020

# of responses: 148

# questions: 10 (plus 5 demographic questions)

Highlights:

- Most agreed with Puget Sound Regional Council's Growing Transit Communities goals to encourage TOD.
- Most agreed with Seattle Comprehensive Plan policies to guide the development of new zoning.
- Most favored tallest buildings within a ¼ mile of stations with heights of 7+ stories.
- Most want the City to consider an urban village, transit overlay or pedestrian zone designations.

### **Affordable Housing and Livability**

Opened October 5, 2020

# of responses: 144

# questions: 15 (plus 5 demographic questions)

#### Highlights

- Greatest concerns: high demand, higher housing costs, displacement of current residents.
- Greatest needs: affordable rental housing and affordable homeownership opportunities
- Priority locations for affordable housing: near public transit, shopping and retail
- Most rated the livability of station area today as “fair”
- Most desirable City capital investments: pedestrian and bicycle infrastructure and improvements to existing parks.
- Most desirable City program investments: Safe Routes to Schools program.
