

As part of its response to the COVID-19 crisis, the City of Seattle has converted many miles of streets into Stay Healthy Streets, with over 20 miles becoming permanent. In order to promote outdoor exercise opportunities for residents living in areas with limited open space options, low car ownership, and routes connecting people to essential services, these streets have been closed to through traffic although local access, deliveries, waste pickup and emergency vehicles are allowed.

**Note:** Google Maps identifies Stay Healthy Streets on their site for reference; it may not, however, be inclusive of all Stay Healthy Streets.

You can find more information about this program on our website at: [www.seattle.gov/transportation/projects-and-programs/programs/stay-healthy-streets](http://www.seattle.gov/transportation/projects-and-programs/programs/stay-healthy-streets)

Both construction and utility work are permitted on a Stay Healthy Streets, but will need to comply with the following:

- You must publicly post on-site signage and provide neighbor notification according to the Notification Requirements section below
- You must maintain 11-ft of travel lane on the street at all times
- If a project will impact a Stay Healthy Street for longer than a calendar month, you must contact [StayHealthyStreets@seattle.gov](mailto:StayHealthyStreets@seattle.gov) at least 5 business days prior to the closure.

## NOTIFICATION REQUIREMENTS

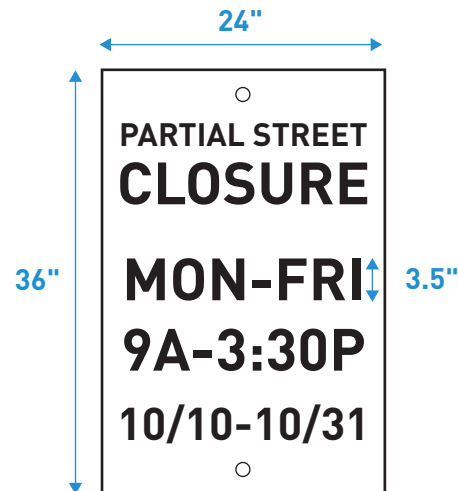

### On-site advance signage

You must notify the traveling public using on-site signage **5 business days** in advance. The on-site notice must include:

1. the start date,
2. the end date,
3. and, if the closure is not 24 hours per day, daily closure times.

Notification may be provided through an electronic message board or temporary fixed signage. Temporary notification signage shall be visible to the public; placed so as not to impede public mobility, sight distances, curb ramps, sidewalks, or driveways; and shall conform to the current City of Seattle Traffic Control Manual for In-Street Work.

The sign must be a minimum size of 24" wide and 36" high, white background with black lettering not less than 3.5" in height as shown in the below figure.

### Neighbor Notification

You must notify adjacent residents and businesses at least 5 business days before beginning work in the right-of-way according to the notification guidance provided in [CAM 2117](#).
